*We transform ourselves
and in doing so change
the world around us.*

My City Group is the expanded version of a business that sought auto-sufficiency and diversification to assure the highest levels of service and the best quality products that will tackle the whole market and cover most demands.

Starting more than a decade ago from an engineering and contracting company, we cover today the Building sector through various companies, either in direct construction with My City Engineering or through companies that provide the required material.

My City Group also positioned itself very well in the huge Real Estate market with My City Real Estate, a leading company with a unique perspective and remarkable capacities when it comes to properties. In My City Group, our activities are even more diversified and attain the leisure market as My City Technical Solutions reflects so well.

Another booming sector we penetrated well is the Dairy Products manufacturing which is managed by Meloky Dairy products factory located in Cairo to share Egypt market with the most famous Dairy

products brands with our high quality products.

Our numerous diversified activities cover also the high standard international education through our under construction school which is certified from MOEHE and supervised by Cambridge.

We are working together to make sure all the links of the chain are of a solid high-quality level and we also offer these intermediate products and services to our clients separately to fully satisfy and suit their needs with our well-known trusted level of service and products.

Our Vision and Mission

With an established presence for more than a decade, My City Group is focused on expanding its

Vision :

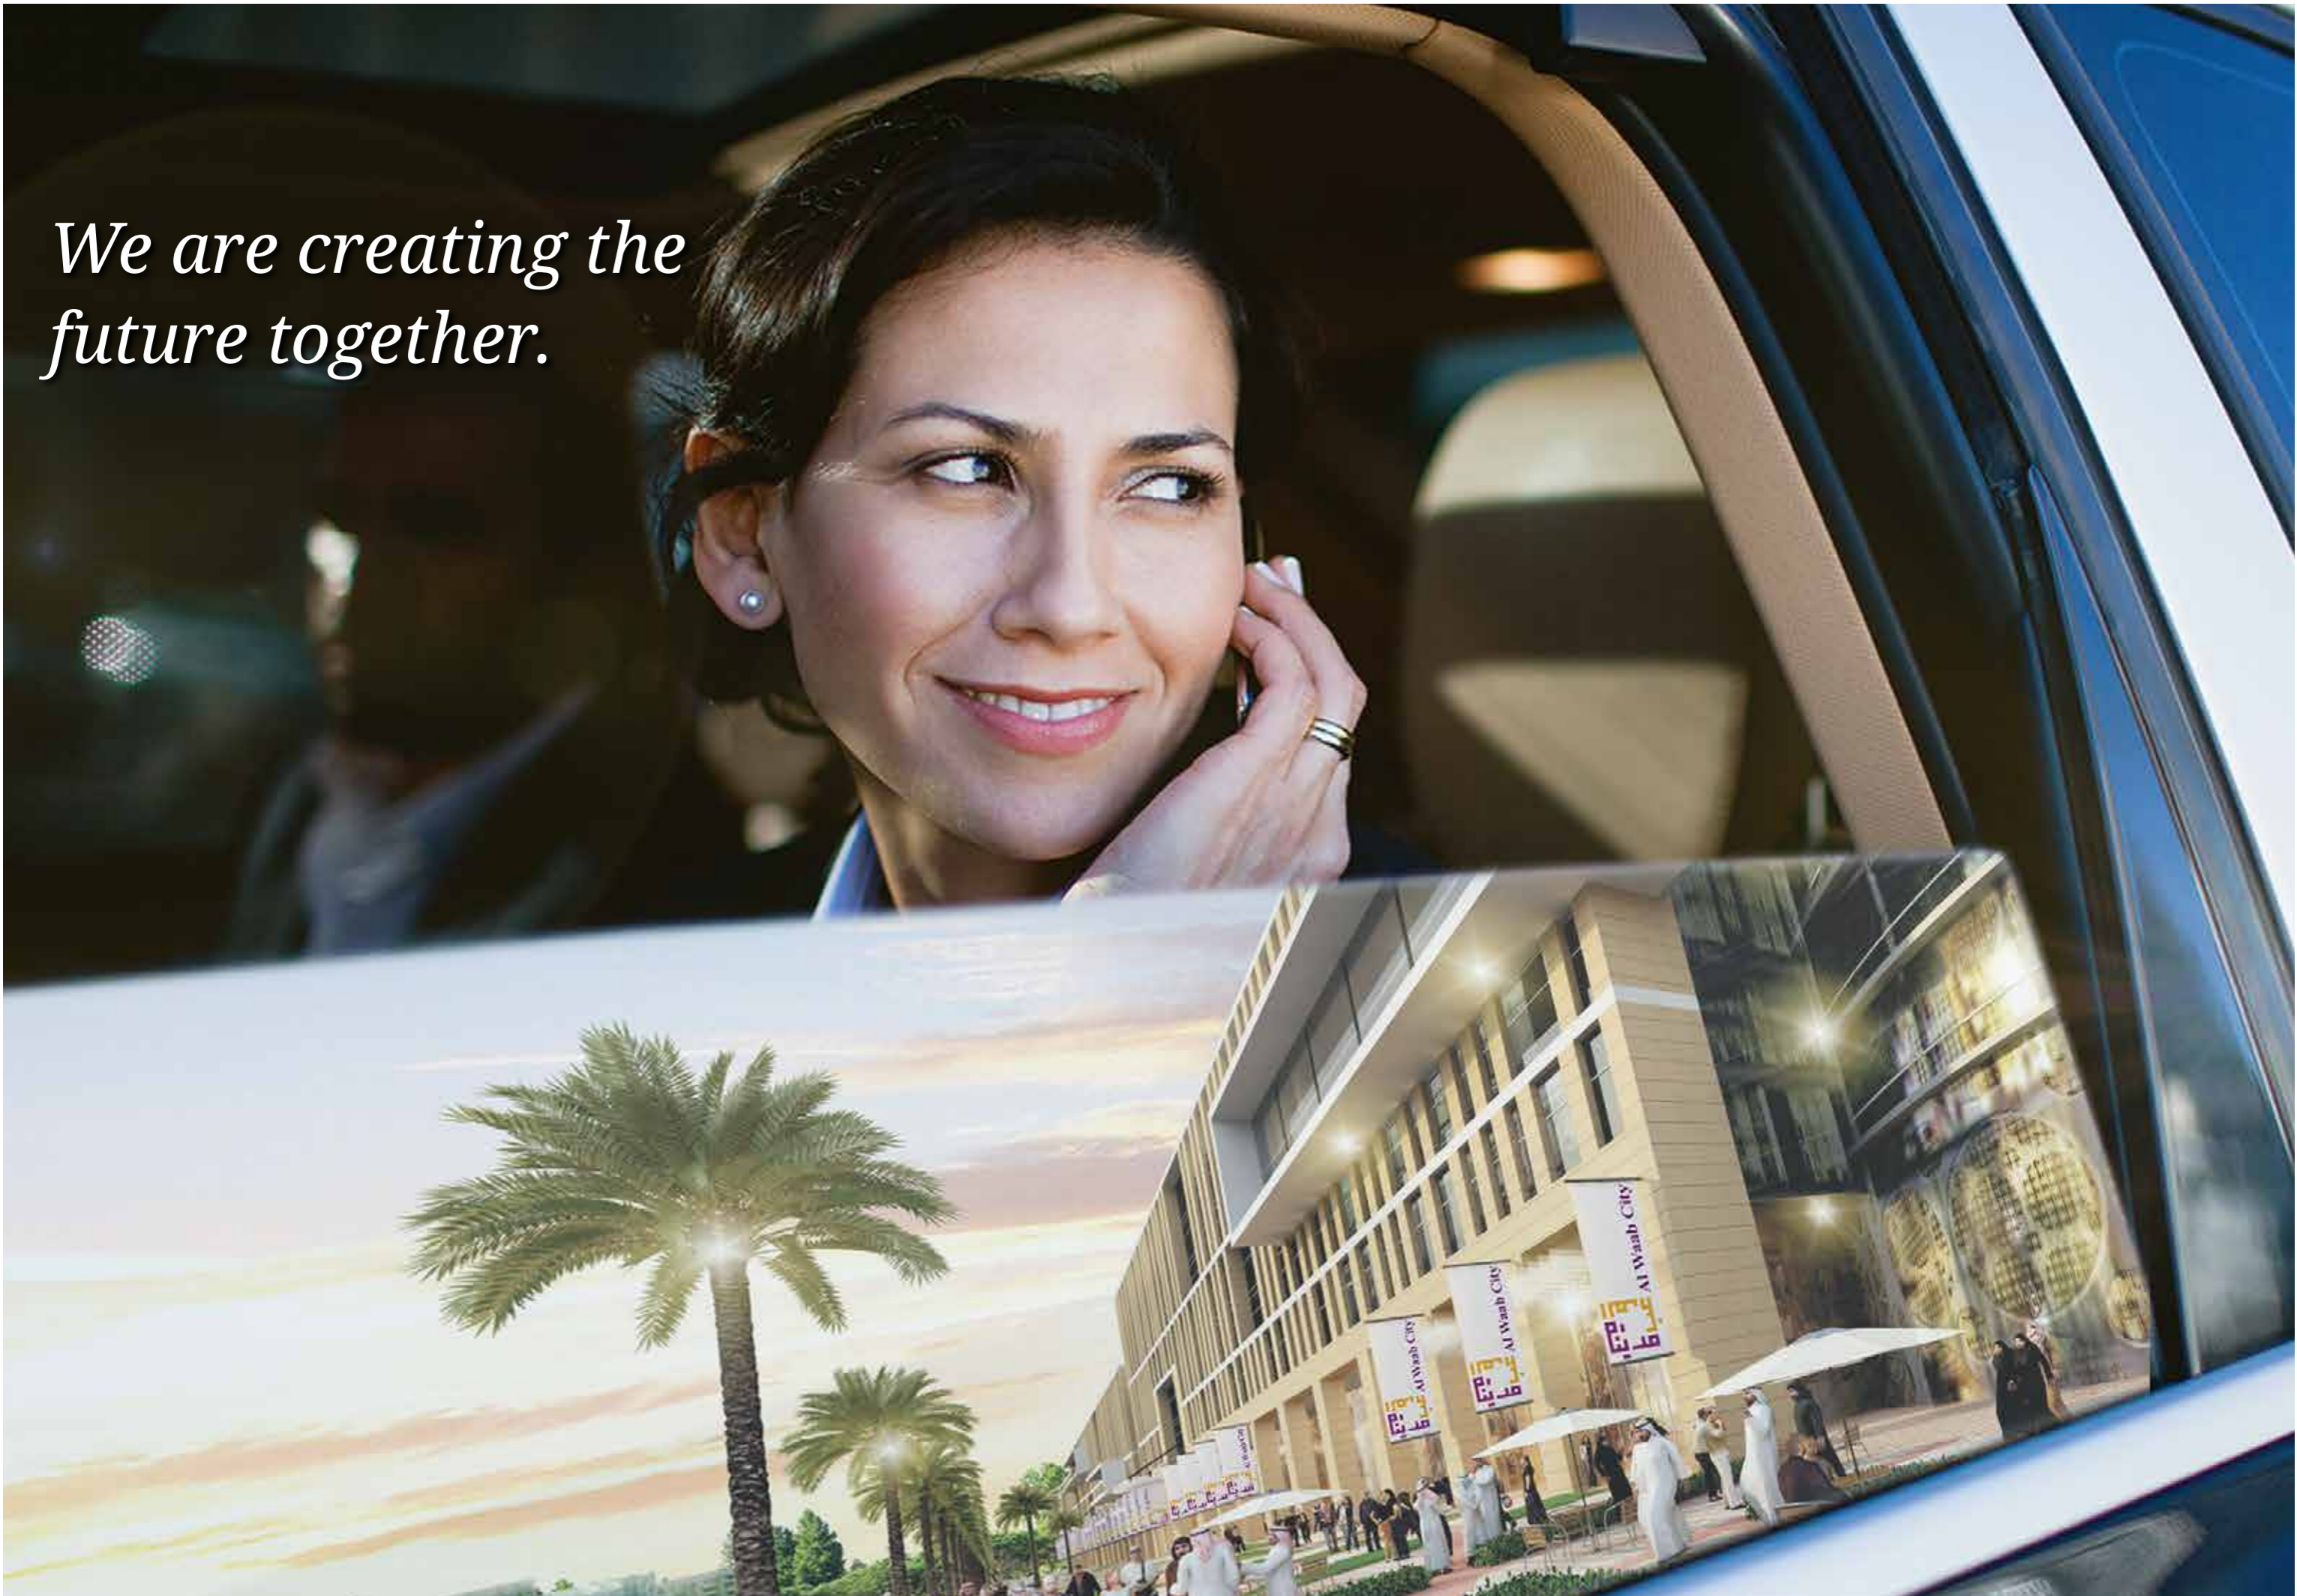

- To grow bigger than the local market and Middle East region.
- To conquer the local market and expand beyond it on an International level with high expertise and versatility.
- Expand experience and use latest technologies to better penetrate the market.
- Remain the leading Group and set the trend for others to follow.

Mission :

- Perfectly fulfill customers' expectations and go beyond it.
 - Offer the best value and return on investment with our trustworthy activity.
 - Define new standards and set the lead for local trends and be the leaders in key domains.
 - Achieve and surpass set goals.
 - Perfectly cover all domains with our reputed level of service.
-

We are creating the future together.

CHAIRMAN'S MESSAGE

Group Chairman Message

In 2004, My City Group started as My City Engineering with a main focus on the construction sector. From modest beginnings , My City Group has grown rapidly, just like the state of Qatar.

In the beginning, we had a workforce of few employees - today we employ over 1000 staff, many of whom have been with us right from the beginning of the business.

One of the cornerstones of the business is being fully committed to staff retention and development - they are essential components in meeting the challenges faced by the company, and to realise the opportunities that face us today and in the future.

We are committed to providing high quality work, on time and within budget, because of this, our client base continues to grow. Most of our clients repeatedly award work to My City Group : they know we have the skills , resources and expertise , and most importantly , the ability and the versatility to complete their projects to

the highest standards, on time. Over the years, My City Group has developed management and financial programs that are consistent with international standards and coupled with state of the art process technologies.

Human resources development continues to be the focus of the Group. It is our sustained policy to respond to the business requirements and meet the aspirations of innovative young Qatari professionals. We are now one amongst the top business Groups in the country. Our major challenge today is to sustain the growth we generated till date. We are proud of our past and we have an active present and we look forward to a promising future.

Dr. Fahed Abdullah Al Attiyah
Group Chairman

MY CITY REAL ESTATE
مدينتي العقارية

My City Real Estate

My City Real Estate is a leading Real Estate company , organised under the laws of Qatar . Since its establishment in 2004, the company has strived to create , restructure and manage a group of investments in the real estate sector.

Our team is highly experienced in underwriting assets to insure an accurate portrayal of a property's financials. We look at each asset separately, where each marketing package is customised to bring out the best that each asset can offer. We pride ourselves that many of our senior management team have been dynamically dedicated to the company for the past years. At the same time, we believe in complementing this existing strength by attracting and retaining the best new talents in the market.

My City Real Estate is constantly looking to recruit and retain the highest calibre of talent , while securing a strong capital base and efficiently managing risks.

My City Real Estate believes that these factors will lead to overall success while exploring opportunities that will have an added value to our clients , investors and

shareholders.

My City Engineering

Since opening for business in 2004, My City Engineering - a member of My City Group has successfully executed a vast array of major construction projects in Qatar , forging its reputation as one of the industry's most respected companies.

Today , My City Engineering has a diverse portfolio of projects spanning builds such as high -rise developments , hotels , residential and industrial projects.

Our Company combines a rigorous focus on outstanding construction with a dedication to superior client service. By listening to the needs of our clients and tailoring our skills to match accordingly, we demonstrate the ability to understand and successfully implement any project. Drawing on a workforce of 500 employees , as well as state of the art equipment , My City Engineering is uniquely qualified to tackle the most complex of projects.

VISION :

Our vision is to be leaders in the construction field, innovative in our technology, proactive in our management and transparent in all our dealings with clients. Our

main concern is to be the leading provider of quality construction service, not only in Qatar but all over the GCC as well.

MISSION :

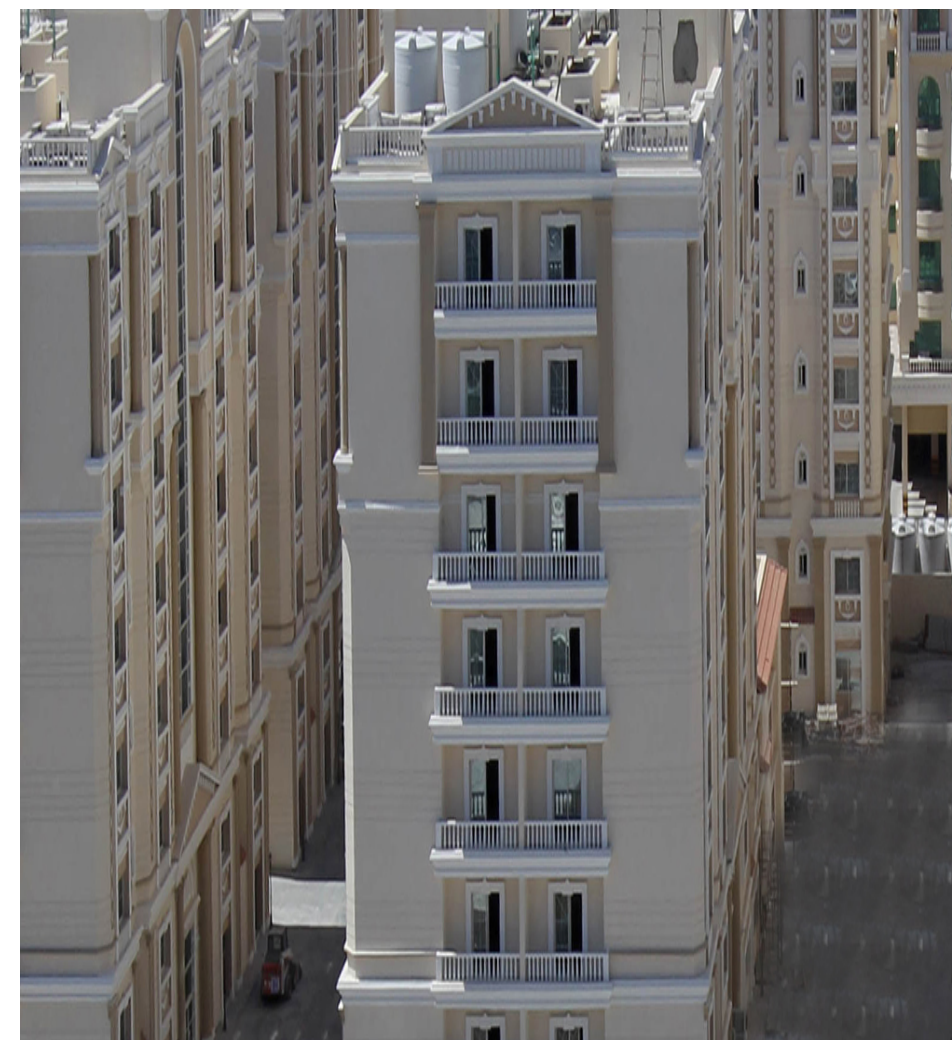

To provide the highest service standards to our clients; ensuring career opportunities to our employees and continuous support to our society. To form long-term relationships of value with our clients and partners by using quality construction and engineering solutions whilst employing the best resources and latest techniques.

VALUES :

Corporate Culture: Diversity and continued development, transparency, teamwork and integrity.

PERFORMANCE:

Our company ethics navigate our day-to-day lives to deliver an expected high quality range of products and

My City Heavy Equipments

Since 2010, My City Heavy Equipment has been involved on projects that cover a wide range of earthwork techniques

We have successfully completed large scale , deep hole shored excavation for urban development , earthwork for light commercial retail, mulit-family centers, as well as large acreage , garden -style apartment sitework.

We are one of the few local contractors with in-depth knowledge and experience in soil nail and soldier pile walls, which gives us a unique understanding of the inherent challenges associated with shoring and deep excavations.

Our personnel have met and overcome the special demands involved in working under severe weather and unforgiving geography. This experience has given our organization the depth and know-how it takes to get the job done , regardless of any challenges encountered . This experienced and dedicated team has created a reputation for quality and value that fosters productive and continuing relationships with our customers.

Our Vision

At My City Heavy Equipments , our goal is to provide the optimal value of our customer's investment, while assuring the growth of our company and the people whom contribute to its success.

We believe in investing in quality people and equipment. This promotes effecient and quality workmanship, as well as a safe and enjoyable working environment. Our top of the line more than 40 Caterpillar equipment is an example of this philosophy. We are equipped with the latest laser technology - producing a more precise job, on time, and on budget.

My City Technical Solutions

My City Technical Solutions is latest innovation in finding new solutions required in the local market.

MCTS starts to find different solutions for so many problems we are facing in our community with new innovations and new ideas , as the parking is one of the most spread problems all over the world , most of countries are suffering from lack of enough parking slots we decide to solve it our own way by getting the sole agency of DYPC company located in Korea the leader manufacturer of the mechanical parking solutions and start implementing that solution in our country

VISION :

Affirming our Name in the local booming market and going beyond to managing establishments under our Brand internationally.

MISSION :

Serving our clients to the highest standards and looking ahead for their leisure and business needs and for innovative solutions for their needs .

VALUES :

Implementing perfect harmony in our very diverse multicultural surrounding and enriching ourselves through that diversity while respecting each and every element.

2

Esaalny International School

It gives us great pleasure to introduce our new under construction international School. Together we are creating a community in which our children will experience the joy of learning and develop as unique and happy individuals.

At Esaalny we will provide more than just an education. Our children will be inspired by new ideas, encouraged as they learn to think for themselves and then challenged to transform the lives of others. Esaalny will be a place where every child will be understood and supported as they aim high and then exceed their expectations. We aim to give our 2575 students in all education stages starting from KG2 till Grade 12 an experience that you will find nowhere else; it is absolutely unique. Our superb facilities and dedicated staff enable us to deliver our programmes in an environment that is intimate, friendly and tuned to their individual needs. We keep our classes and tutorial groups relatively small to create an atmosphere where you can feel relaxed and comfortable, which allows students to really get to know their tutors and get the most from Esaalny.

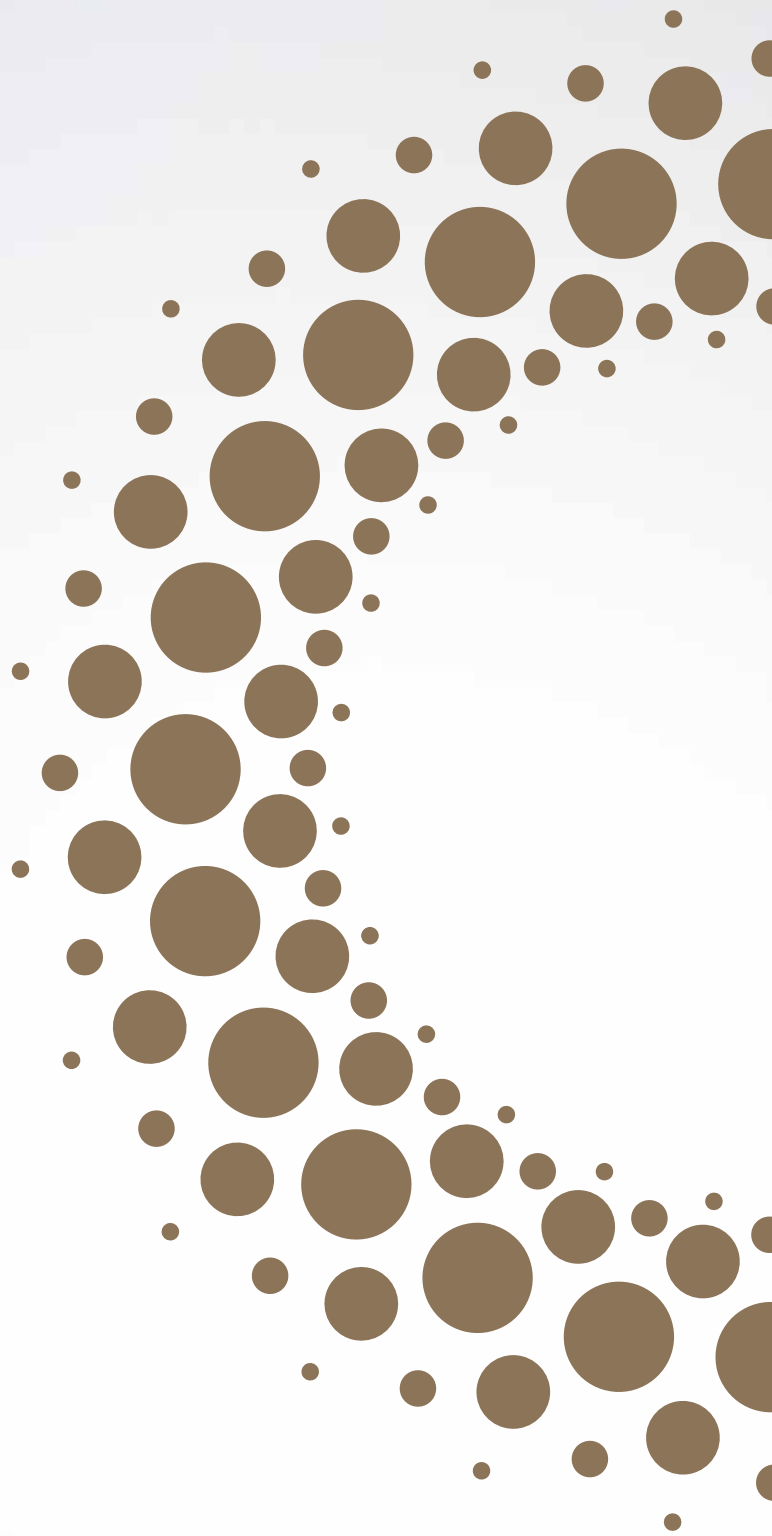

MISSION :

At Esaalny School Qatar, we teach pupils to play a full part in their education, to work independently and to think imaginatively. We want our pupils to care sincerely for others, for themselves and for the world around them. We hope that our pupils will actively seek through their learning to discover their full potential and to appreciate an active and inquisitive life..

VISION:

The vision of Esaalny School is to be an outstanding international school in Qatar. We are committed to the culture of excellence and values. We impart this through the tenets of the British National Curriculum to our all stages students starting from KG2 till G12. With the support of the Management and the teaching fraternity, we develop each child's intelligence, physical development and prepare them for life.
